

FUN01 | Make yourself at home

There is a viewing space on the summit of Yashima, overlooking the many beautiful islands in the Seto Inland Sea and the city area.

The place with a space for enjoying beverages, food, and shopping is where you can make yourself at home.

FUN02 | Learn about Yashima

The cloister-style facility includes an exhibition room for a panoramic artwork themed on the Genpei War and a space for exhibits related to Yashima. Tour the facility and learn about Yashima.

FUN03 | Interact

The facility includes a multipurpose hall that can be used for various activities, such as training programs and events.

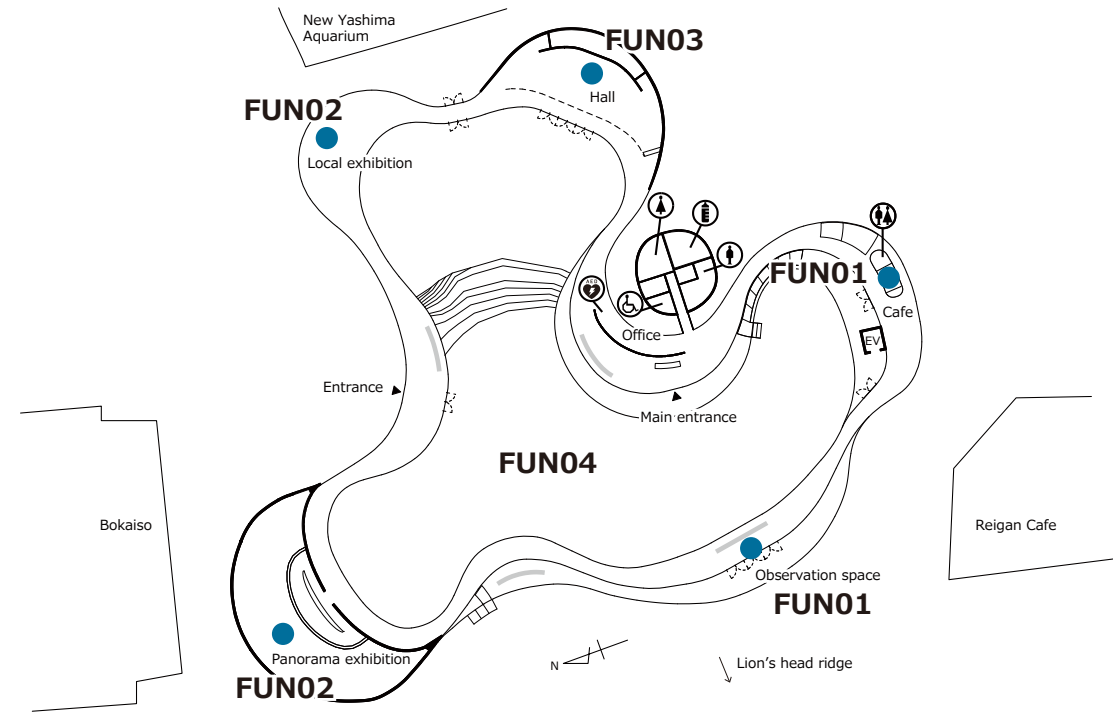

FUN04 | Feel

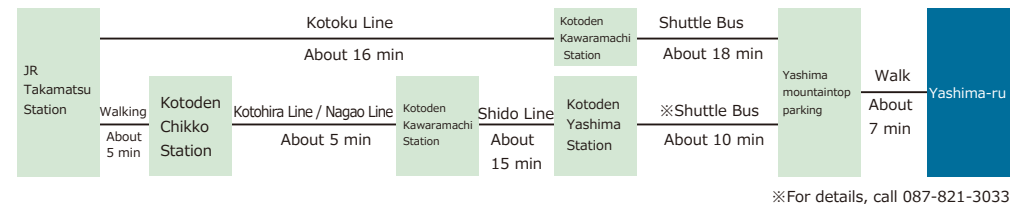

The biggest way to enjoy it is to experience the whole Yashimaru. This facility is a corridor type with about 200m, and has a fun design with slopes and curves that follow the topography of Yashima. The roof tiles made from local Aji stone are also a highlight.
